## ARBITRATION TREATY

Its Friends Unable to Get a Day Set  
For Final Vote.

### TO REPEAL CIVIL SERVICE LAW.

Bill Prohibiting Exhibition of Pictures of  
Prisefights - Grosvenor and McMillan  
on the New Tariff Law - Gowdy Files  
His Bond - Postmasters Nominated - Mc-  
Kinley's Dinner to Cabinet Members.

WASHINGTON, March 25. - Senator  
Davis, chairman of the senate commit-  
tee on foreign relations, made a deter-  
mined effort yesterday to secure unani-  
mous consent to fix a day when the  
final vote should be taken on the arbi-  
tration treaty, but only succeeded to the  
extent of obtaining an agreement to a  
time for a vote on the miscellaneous  
amendments. It was only after decided  
controversy that the opponents of ratifi-  
cation agreed to a date for voting on the  
amendments.

The understanding as to the vote pro-  
vides that the general discussion on  
amendments shall continue until 2  
o'clock on Wednesday of next week,  
when a vote is to be taken on those  
which may be pending at that time;  
that in case any of the amendments are  
agreed to, the treaty as amended shall be  
printed and returned to the senate and  
shall still be open to amendment, but  
that the final vote on amendments shall  
be taken at 4 o'clock the following day,  
Thursday.

The main debate of the day was upon  
the Chilton amendment providing for  
submitting all agreements for arbitra-  
tion made under the treaty to the sen-  
ate for its approval before entering upon  
a course of settlement. Senator  
Morgan announced himself as opposed to  
the treaty in any shape, but if it was  
to be ratified at all the amendment  
should by all means be accepted; other-  
wise the treaty would be subversive of  
some of our most cherished American  
ideas.

Senator Lodge said that while al-  
ways a warm advocate of the principle  
of arbitration, he had from the first  
contended for amendments which  
would render the treaty acceptable to  
the American public. He felt satisfied  
that the modifications made in com-  
mittee had accomplished this purpose and  
that the document as amended was one  
that would commend itself to every  
supporter of peaceable methods for the  
adjustment of disputes and to every  
friend of humanity. He held that the  
committee amendments would in effect  
require the submission of all agree-  
ments under the treaty to the senate.

Senators Davis and Hoar made brief  
speeches, practically taking the same  
ground. Several senators, among them  
Messrs. Thurston and Spooner, asked if  
this were the case, why it should not be  
explicitly stated, as in the Chilton pro-  
vision. They advanced the idea that  
the adoption of this language might  
have the effect of preventing future  
misunderstandings.

**FIFTY-FIFTH CONGRESS.**  
Bill Introduced in the Senate to Repeal  
the Civil Service Law.

WASHINGTON, March 25. - The senate  
session lasted only a half hour yesterday  
and no business was done beyond the  
introduction of bills. Among these  
was one by Mr. Allen (Pop. Neb.) to  
repeal the civil service laws and to do  
away with educational tests as a pre-  
liminary to entering the public service.

Mr. Hoar (Mass.) presented a bill  
prohibiting vitascopes and kindred exhi-  
bitions of prizefights in the District of  
Columbia and the territories and for-  
bidding the shipment of pictures for  
these exhibits by mail or through any  
interstate means. The bill specifies  
that prizefights shall not be re-  
produced by means of the kinegraph, vi-  
tascope, kineoscope or any kindred  
device or machine. The violation of  
the provisions is made a misdemeanor,  
subject to a fine of not less than \$500  
nor more than \$5,000.

**Debate in the House.**  
The tariff debate in the house yester-  
day was almost as dull as the first day.  
There were two notable speeches, one  
by Mr. Grosvenor of Ohio and the other  
by Mr. McMillin of Tennessee, but the  
rest of the speeches, with the possible  
exception of that of Mr. Walker of  
Massachusetts, hardly created a ripple  
on the monotonous sea of speechmak-  
ing. Mr. Grosvenor and Mr. McMillin

were distinctly the orators of the  
day.

The night session was devoted to set  
speeches. There were only two features  
of the session that caused attention.  
Mr. Kerr (Rep., O.) severely criticised  
the reciprocity features of the bill.  
"We should adopt the McKinley plan  
of reciprocity," said he, "the plan born  
in the brain of James G. Blaine."

The other feature was the statement  
of Mr. Castle (Dem., Cal.) that if  
"Rome had her Cataline, America had  
her Hanna."

**FIRST FORMAL FUNCTION.**  
President and Mrs. McKinley Entertain  
the Members of the Cabinet.

WASHINGTON, March 25. - The first  
formal social function at the white  
house under this administration took  
place last night, the occasion being a  
dinner given by President and Mrs. Mc-  
Kinley to the members of the cabinet  
and their ladies. The affair gave Mr.  
and Mrs. McKinley an opportunity to  
meet socially those with whom they are  
to be associated during the coming four  
years. The table was elaborately de-  
corated with flowers.

Following the dinner Miss Ella Rus-  
sell, the American prima donna who  
has just returned from Europe, where  
she scored a brilliant success in opera,  
oratorio and concert, sang for the guests.  
Her wonderful voice created great en-  
thusiasm and she was warmly applaud-  
ed. Franz Wilczek rendered two vi-  
olin solos.

**CHAIRMAN GOWDY.**  
He Takes the Oath of Office and Files  
His Bond.

WASHINGTON, March 25. - State Chair-  
man Gowdy has taken the oath of of-  
fice as consul general to Paris and filed  
his bond for \$10,000 with the state de-  
partment. He has engaged passage for  
himself and family on the American  
liner St. Paul, and will sail from New  
York May 5. He left last night for his  
home and will call the Republican  
State committee together early in April  
and tender his resignation and will re-  
turn here for final instructions in about  
three weeks.

**Colleges Gain Their Point.**  
WASHINGTON, March 25. - The opposi-  
tion made by the colleges of New  
England and by many scientific men  
and scientific apparatus by the Dingley bill,  
induced the framers of the measure to  
amend it and restore so many of these  
articles to the free list as are imported  
for the use of educational institutions.

**Postmasters Nominated.**  
WASHINGTON, March 25. - The follow-  
ing nominations were sent to the senate  
yesterday: Indiana Postmasters - John  
Zimmerman, Cannelton; Fred J. Her-  
man, Tell City; James F. Lawson,  
Spencer; James H. Warwick, Princeton.  
Ohio - Cornelius D. Gist, Athens;  
Robert S. King, Glouster.

**Status of Lincoln.**  
WASHINGTON, March 25. - The senate  
library committee has presented a fa-  
vorable report on the bill introduced by  
Senator Cullom of Illinois, appropriat-  
ing \$50,000 for a statue of Lincoln at  
Gettysburg, Pa.

**Applications Filed.**  
WASHINGTON, March 25. - F. B. Stout  
of Paoli, Ind., has filed an application  
for an auditorship in the navy depart-  
ment, and M. Forehoff of Logansport,  
Ind., wants to be appraiser of customs  
at Lawrenceburg, Ind.

**KENTUCKY SENATORSHIP.**  
Hunter and Anti-Hunter Forces Lined  
Up For the Contest.

FRANKFORT, Ky., March 25. - The  
several forces in Kentucky's famous  
senatorial struggle are lined up like  
armies ready for battle. The two ballots  
already taken were but strengthening  
skirmishes and no one knows which  
side will make the first real attack.  
Last night it was whispered that the  
anti-Hunter Republicans are ready to  
act and were urging the Democrats  
who are in the Bradley coalition scheme  
to make the dash intended on today.

Hunter, with six bolting Republicans,  
has secured three Democratic votes and  
is putting forth every effort to secure  
the two additional votes necessary to  
his election. The Bradley coalition  
propose to hurry up matters to prevent  
his securing these votes.

When the break does come and more  
than the six bolting Republicans go to  
voting with the Democrats for Bradley  
it is believed that some free silver Dem-  
ocrats will turn to Hunter and make  
the final fight one of the closest and  
most exciting on record. Hunter had  
69 votes in yesterday's balloting.

**GRANT MONUMENT INAUGURAL.**  
Great Military Parade Will Be One of  
the Features.

NEW YORK, March 25. - Major General  
Grenville M. Dodge, grand marshal of  
the Grant monument inaugural parade,  
says that the showing to be made by  
the United States infantry, cavalry and  
artillery on April 27, will be the largest  
ever seen in this country with the ex-  
ception of the parade in Washington at  
the close of the war.

The North Atlantic squadron will re-  
turn to this harbor for the spring reu-  
dreuz on April 20, and the marines  
and blue jackets will come ashore on  
the morning of April 27 and participate  
in the parade. The squadron will an-  
chor in the Hudson river opposite  
Grant's tomb and fire a salute.

**AGAINST BANKERS.**  
Kentucky Court of Appeals Says They  
Must Pay Ad Valorem Tax.

FRANKFORT, Ky., March 25. - The  
court of appeals has decided that the  
banks of the state must be taxed under  
the ad valorem system, thus reversing  
a decision rendered something over a  
year ago. This decision comes as a  
blow to the banking institutions of the  
state, which heretofore have been taxed  
under the Hewitt bill, passed in 1886,  
and which provided for the payment of  
75 cents on each \$100 worth of capital  
stock. Under the ad valorem system  
they must pay the regular tax rate, not  
only on their capital stock, but on all  
the property that they may have in  
their possession.

## DUEL TO THE DEATH

Result of a Quarrel Between Jealous  
Twin Brothers.

### THEY MEET NEAR MOORES HILL.

George and Calvin Holmes, Sutors For  
the Same Young Lady's Hand, Resort  
to Pistols - George Is Dead and Calvin  
Probably Fatally Wounded - Members  
of a Prominent Family.

GREENSBURG, Ind., March 25. - George  
and Calvin Holmes, brothers, fought a  
duel to the death near Moores Hill late  
yesterday. The boys were twins and  
22 years old. The are members of a  
prominent and wealthy family. Miss  
Higgs, over whom they fought, is the  
daughter of one of the wealthiest fami-  
lies in the county.

About a year ago George Holmes be-  
gan paying attentions to Miss Higgs  
and he was favorably received. Last  
Christmas his brother, Calvin, returned  
from college and met the young lady at  
a neighborhood dance.

They at once seemed smitten with  
each other and this aroused the jealousy  
of the girl's lover. Nothing was known  
of his feelings, however, until Sunday  
night when Miss Higgs jilted him for  
her brother. A quarrel ensued. Last  
evening the brothers met in the road.  
They quarrelled and struck each other  
when Calvin fired. Several shot were  
exchanged when George dropped dead.  
Calvin is wounded over the heart.

### CHILDREN BURNED TO DEATH.

Parents Put Them to Bed and Go to a  
Religious Meeting.

LADSDALE, La., March 25. - Five chil-  
dren of Mr. and Mrs. Frank Penrod were  
burned to death. Three were cremated  
and two died a few hours later. They  
were:

HARRY, aged 10.  
JOHN, aged 8.  
MINERVA, aged 6.  
ROSS, aged 4.  
BLAINE, aged 3.

The parents of the children took the  
oldest child of the family, a son aged  
12, and a baby in the arms of its mother,  
and went to a religious meeting, having  
first put the other five children to bed.  
The schoolhouse where the services  
were held was only 100 feet away from  
the Penrod home.

### DON'T LIKE IT.

British Press' Opinion of the Senate  
Amendments.

LONDON, March 25. - The papers here  
bitterly criticize the action of the  
United States senate in the case of the  
arbitration treaty. The St. James Ga-  
zette says: "The senators carried their  
point with that refinement of pettifog-  
gers' cunning which enables certain  
minds to gain their end without expen-  
sing it. The amended treaty not only  
does not improve the present conditions  
but it renders arbitration practically  
impossible, as while now there is no ob-  
stacle in the way of an agreement to  
arbitrate, hereafter such agreement  
must be approved by a two-thirds ma-  
jority of the senate in which the parties  
are generally pretty evenly divided."

The Westminster Gazette says: "It  
is a very disappointing and disconcerting  
result of all the endeavors of Lord Salis-  
bury and Secretary Olney. The un-  
pleasant aspect of the matter is the  
anti-English feeling underlying the ac-  
tion of the senate."

The Pall Mall Gazette expresses the  
opinion that "A prostrate plan has  
been wrecked merely to please sensa-  
tional journalism and self importance,"  
adding: "Americans generally, we firmly  
believe, will be thoroughly ashamed of  
their senate, more so than ordinarily,  
which is saying a lot."

### CUBAN WAR.

Insurgents Repulsed in a Number of  
Encounters With Spanish Troops.

HAVANA, March 25. - According to of-  
ficial advices received here the insur-  
gents attacked and burned the greater  
part of the village of Blanquiaz, near

Two Breaks in the Levee Below Mem-  
phis - Relief Committee's Work.

MEMPHIS, Tenn., March 25. - The sit-  
uation regarding the flood remains  
practically unchanged. The fact that  
the levees below the city on the Missis-  
sippi still remain intact and the good  
news that they will probably be  
able to withstand any further rise is  
calculated to make the outlook more  
and more cheering. The dispatches  
giving the good news concerning the  
conditions of the levees below this city  
may be relied upon as authentic. In  
addition a message from Major Dabney  
confirms the good news, he himself  
having completed a personal inspection  
of the system of levees below Memphis  
on the Mississippi side. The work of  
the relief committee continues without  
any abatement. The committee is kept  
busy providing for the wants of the  
3,000 destitute people who are here de-  
pendent upon charity. Nor has the  
stream of newcomers ceased.

News has been received by United  
States Engineer Fitch that the levee on  
the Arkansas side has broken in two  
places below Memphis - one at Dawson,  
which is about 138 miles below Mem-  
phis, and one not far below Mem-  
phis. Engineer Fitch has sent a boat, with  
barges and skiffs, to the assistance of  
the people in the country affected by  
these breaks. The details concerning  
the break at Dawson are meager. The  
break near Modoc was not unexpected,  
as the levee seems to be weak in that  
vicinity, several breaks having already  
occurred in spite of every effort to pre-  
vent such disasters.

### CRETAN TROUBLE.

Neither Greece Nor Crete Has Bene-  
fited From European Behest.

ATHENS, March 25. - All kinds of rum-  
ors are current here as to the expected  
rupture of the European concert. The  
danger of delaying a definite solution of  
the crisis increases daily. The Crown  
Prince Constantine is expected to start  
in a few days for the Greek camp at  
Larissa, and the risk of a serious out-  
break is becoming more and more in-  
tense.

The report of the conflict between  
the Turks and Greeks volunteers at  
Arta has been officially confirmed.  
Other incidents of the same character  
must be expected.

Neither Greece nor Crete has bene-  
fited much in the past by compliance  
with European behests, and unless some  
visible proof is given of the complete  
abolition of Turkish rule in Crete, the  
country will not be satisfied. It is al-  
leged that the reserves will refuse to  
come out on a future occasion unless  
satisfaction is obtained now for Greek  
sacrifices.

Manzanillo. The insurgent leader

fortifications in the vicinity of Hoyo  
Colorado, in the province of Havana.  
It is claimed that the Spanish were suc-  
cessful and the insurgents repulsed in a  
number of encounters.

Forty insurgents recently succeeded  
in derailing a train enroute from Is-  
abella to Sagua. The engineer and  
seven of the trainmen were captured.  
After travelling with their prisoners  
for some distance the insurgents re-  
moved all the clothing from the train  
employees and then set them free.

An insurgent spy, captured near the  
town of Salud, made a confession upon  
condition of a pardon being granted to  
him. He said that the insurgent  
forces would attack the town the next  
day. The local garrison was at once re-  
inforced, and when the Cubans made  
an assault upon the town they were  
easily repulsed. The spy also betrayed  
the insurgent committee in the town,  
and as a result five persons were ar-  
rested upon charges of plotting against  
the crown of Spain.

**Died From His Injuries.**  
ALTOONA, Pa., March 25. - William  
Painter, a well known resident of this  
city, is dead from the effects of injuries  
received in a peculiar manner. When  
President McKinley passed through  
Pittsburg on March 2, on his way to  
Washington, Painter was in the crowd  
at the depot and was forced against a  
post by the surging mass of people. He  
was so badly injured that death finally  
resulted.

the residence of his father in Mexico.

MICHIGAN CITY, Ind., March 25. -  
Private advices received here state that  
President McKinley will pass on the  
application for the pardon of Francis  
Coffin, the famous Indianapolis bank-  
wrecker, within 10 days. Strong in-  
fluence has been brought to bear to se-

helped to loot the Indianapolis National

**CRETAN TROUBLE.**  
Neither Greece Nor Crete Has Bene-  
fited From European Behest.

ATHENS, March 25. - All kinds of rum-  
ors are current here as to the expected  
rupture of the European concert. The  
danger of delaying a definite solution of  
the crisis increases daily. The Crown  
Prince Constantine is expected to start  
in a few days for the Greek camp at  
Larissa, and the risk of a serious out-  
break is becoming more and more in-  
tense.

The report of the conflict between  
the Turks and Greeks volunteers at  
Arta has been officially confirmed.  
Other incidents of the same character  
must be expected.

Neither Greece nor Crete has bene-  
fited much in the past by compliance  
with European behests, and unless some  
visible proof is given of the complete  
abolition of Turkish rule in Crete, the  
country will not be satisfied. It is al-  
leged that the reserves will refuse to  
come out on a future occasion unless  
satisfaction is obtained now for Greek  
sacrifices.

## Patrons of Industry.

CLEVELAND, March 25. - The delegates  
to the annual convention of the Patrons  
of Industry were welcomed to Clevel-  
and by Mayor McKisson yesterday.  
Resolutions were adopted declaring in  
favor of mutual fire insurance, co-opera-  
tion among farmers in selling produce  
and buying supplies and the recognition  
of the organization by the national gov-  
ernment in appointments in the depart-  
ment of agriculture.

**Went Down With Their Train.**  
MURPHYSBORO, Ill., March 25. - The  
engine and four cars of the northbound  
local on the Chicago and Texas railway  
went down with the bridge across the  
Big Muddy river at Aldridge station,  
south of Grand Tower. Engineer Joe  
Forrester and Fireman James Ander-  
son were drowned. The Big Muddy is  
raging, and the bridge failed to with-  
stand the pressure.

**Caught In His Trap.**  
ORVILLE, O., March 25. - Harry South,  
fearing thieves would rob his smoke-  
house as they had his neighbor's, placed  
a loaded rifle in position, with a string  
from the trigger to the door. Forget-  
ting about the trap he had laid, he  
opened the door and the gun was dis-  
charged, the ball passing through his  
liver, causing his death.

**Governor May Veto It.**  
SPRINGFIELD, Ill., March 25. - The  
antidivorce bill has passed the state  
senate, with only four negative  
votes. The house is expected to pass  
the bill, but Governor Tanner may veto  
it on the ground of unconstitutionality.

**Shot Down In His Own House.**  
LIMA, O., March 25. - William Bentley  
was shot down and instantly killed in  
his own house by John Simons. The  
murder was the outgrowth of a quarrel  
Simons had with his wife. They lived  
with Bentley.

## Dr. Miles' Nervine Victorious.

Physical and Mental Exhaustion Gives Way to Vigorous Activity.

REV. W. T. HOOKER, the talented pastor of Grace U. B. church, Carlisle, Penn., writes September 28, 1896: "I always enjoyed good health, until in 1892, at which time my duties as a clergyman were of a peculiarly trying nature, subjecting me to several severe nervous shocks which together with overwork and anxiety, impaired my general health and nervous system. Indeed I was in such a condition that the mere sight of a large congregation so wearied me that it would require a day or more for me to recover from the exhaustion. It affords me great pleasure to say that Dr. Miles' Nervine and Restorative Tonic have done me untold good. I preached three times yesterday and I feel as fresh and vigorous this morning as I ever felt in my life, thanks to your remedies. Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on Heart and Nervous System free to all applicants. DR. ## McKINLEY'S CUBAN POLICY.

President McKinley's Cuban policy is proving extremely satisfactory and gratifying to the people of the United States. It is in marked contrast with that of President Cleveland, and its effect in producing favorable action on the part of the Spanish authorities has been almost electrical. During President Cleveland's administration the doors of the Spanish prisons in Cuba closed upon scores of American citizens and remained closed. A few days before President McKinley's inauguration Senator Sherman, his prospective secretary of state, announced in the senate in clear, ringing terms that American citizens must and should be protected, and their full rights demanded at any cost, and this was followed by an equally explicit and vigorous expression by President McKinley in his inaugural. The result of these two expressions has been that the doors of the prisons in Cuba have been flying open to the imprisoned American citizens almost daily since President McKinley's inauguration. This has been accomplished without threat or bluster, but it has been accomplished.

The suffering people along the Mississippi are receiving help from many parts of the country.

The people of Paris spend about \$6,000,000 a year on theatres and amusements. Who says Capt. Gowdy won't have a good time over there?

It seems queer that a member of the city council should criticize the marshal for enforcing the law. Yet that is what one of the democratic members of the Seymour council did this week.

The republicans of Kentucky have a majority in the legislature and owe it to their constituents to elect a United States senator. If they fail to do this because of factional quarrels they will come far short of their duty. They do themselves no credit by keeping up such a bitter fight among themselves.

PATRONIZE the people of your own town in preference to those of other places. Do not buy away from home what you can just as well get at home. The business men of Seymour will appreciate your trade. They will do all they can to please you. The business men, on the other hand, should also remember home institutions, even the printing offices. Because their business takes them into the city frequently is no reason why they should buy there for their own use, what their own people can furnish. Let us all be loyal to the interest of each other here at home.

The supporters of the free coinage of silver are having a hard time. Their theory that wheat and silver moved abreast was knocked out during the closing week of the campaign and is still in the same condition, wheat having remained at a good price while silver has still depreciated, having reached almost the lowest point in its history. Coupled with this misfortune to their cause is the announcement that Japan, to which they had "pointed with pride" as the leading exponent of their idea, is about discarding the silver system and going to the gold standard. Between their November defeat and these two incidents which followed it, they are losing courage and also losing adherents.

POLITICAL BREVITIES.

Attorney A. N. Menden is billed for a free silver speech at North Vernon, April 13th.

Dr. Hunter received sixty seven votes for United States senator yesterday out of a total of 136 cast on joint ballot.

Senator Fairbanks has already made a large number of recommendations for postoffices in Indiana.

Dr. Hobbs' representative did not expect so soon to get favorable reports from applicants who procured from the drugstore of Wm. F. Peter, successor to J. H. Andrews & Co., a free sample of Dr. Hobbs' Spargus Kidney Pills. Tests so far have gone to show that these remarkable pills produce favorable results with a degree of quickness heretofore unknown in the treatment of kidney and bladder diseases and all ailments arising therefrom. At the same time no reasonable person would expect that within five days from the time the first sample of Dr. Hobbs' Spargus Kidney Pills was given out good effect would be generally manifest, as the very nature of Kidney disease is such that a reasonable amount of time and patience will be found necessary to test their real virtues.

People who have dosed themselves with all kinds of so called kidney medicines until not only their kidneys, but their entire system is in a state of prostration, cannot expect to be cured in a day or two by Dr. Hobbs' grand remedy, however great his claims may be. The man who would advertise to cure Bright's disease—that fearful insidious and dangerous ailment—in a few hours, should be drummed out of town as an impostor and a man trifling with human life. The modesty of Dr. Hobbs' claims is one thing that especially commends him and his remedy to the public.

What Dr. Hobbs' Spargus Kidney Pills Are Designed and Guaranteed to do.

They soothe, heal and cure any inflammation of the kidneys and bladder. They cure backache.

They cause the kidneys to filter out of the blood all poisons and impurities whether made in the system or taken in from the outside.

They render sluggish kidneys active. They cause the kidneys to cast out the poisons of rheumatism (uric acid), the disease germs of malaria and the grip.

They cause the kidneys to keep the blood pure and clean and thus prevent neuralgia, headache, dizziness, nervous dyspepsia, skin diseases, eruptions, scales, tetter and rashes.

The cause the kidneys to work steadily and regularly.

They dissolve and cast out brick dust and phosphate deposits and dissolve gravel and calculi in both the kidneys and bladder.

They cure Bright's disease.

They cause the kidneys to rapidly rid the system of the poisons of alcohol and tobacco.

They yield a clear mind, sweet sleep, steady nerves, active bodies, brimful of the zest and happiness of living, bright eyes and rosy cheeks, because they keep the blood free from poisons and impurities that would otherwise clog and irritate it.

Healthy kidneys make pure blood. Pure blood makes perfect health. Perfect health makes life worth living.

Dr. Hobbs' Spargus Kidney Pills do this, and do it at all times.

Ephraim, whose surname is Inman, entertains the Bryan Club.

The Seymour Bryan club held a meeting last night. Proceeding this meeting the band played. Seven pieces were rendered. The boys played well. More than a hundred came out to hear them and some of them remained for the meeting. Ephraim, whose surname is Inman, had been brought up from Washington to talk. He had been here before. He talks Bryanism.

When those who were present were induced to "come forward and fill up the front seats" the meeting was ready to be presided over. Several popocratic dignitaries were present. The "key notesounder" came in early and took a seat in the middle of the hall, thus furnishing ballast. To his right sat Tom Arbuckle, the personification of popocratic wisdom. The Burkharts, both Joe and Charley, were there looking pleasant. Dr. J. T. Shields and William Railing sat side by side on the front row of chairs. A. N. Munden was there doing service for the brethren and getting points for the speech he is to make at North Vernon, April 13. Auditor Durment, Recorder Brooks and Treas., urer George Andy Robertson came up from Brownstown and stayed until the meeting was out. George Andy sat on the platform. Besides these "there were others" among whom were J. Q. A. Newsom and Wilbur Pfaffenberger.

The hour came to call order and for the people in the audience to cease whispering. Henry Bruning, president of the Bryan club, stepped forward and spoke as follows: "Ladies and Gentlemen, In 1776 there was a day they called the Fourth of July. In 1896 we had a day remembered as the Third of November." (At this point a number of handkerchiefs went to the eyes of the popocrats present, which confused the speaker, but he ended his introduction bravely.) "We have a gentleman with us tonight by the name of Inman whom I am pleased to introduce."

Inman arose and said he was glad he came. Then he proceeded to deliver the same speech he delivered here last fall. He talked for over an hour after which the meeting adjourned and the speaker was given a ticket to return to his home at Washington, where he has a job as city attorney.

Marvelous Results.  
From a letter written by Rev. J. Gun derman, of Dimmondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist church at Rives Junction she was brought down with pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery. It was quick in its work and highly satisfactory in results." Trial bottle free at W. F. Peter's, successor to J. H. Andrews & Co, Drug Store.

Kasting-Backemier.  
At high noon to-day, March 25, 1897, Wm. H. Kasting and Miss Sadie Backemier were quietly married by Rev. A. Graessle at the home of F. H. Kasting, three and one half miles southwest of Seymour. Only the immediate relatives and a few friends were present. The bride is the daughter of Mrs. Backemier, who lives in that vicinity. The groom is the son of the prosperous farmer, F. H. Kasting. Both young people are held in the highest esteem by a large circle of friends.

DROWNED.  
Benjamin Covert, of Crothersville, Drowned in the Muscatatuck Today.

Benjamin Covert, of Crothersville, was drowned at 11 o'clock this Thursday forenoon, March 25, 1897, in the Muscatatuck river at Langdon. He was assisting in moving a boat across the stream, and accidentally fell into the water. He was about thirty five years old. He leaves a wife and two children. The body has been recovered. The coroner was called this afternoon.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison, headache, indigestion, constipation, dizziness, yield to Electric Bitters. Try it once. 50c and \$1.00 per bottle at W. F. Peter's successor to J. H. Andrews & Co, Drug Store.

Deafness Cannot Be Cured.  
By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out, and this tube restored to its normal condition or hearing will be destroyed forever, nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Props., Toledo, O. **John R. McLean's Great Newspaper.**

Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; or a more successful publisher than its proprietor, Mr. John R. McLean.

The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

### OUR JASON.

Entertained Royally By Friends at Columbus.

Ex-congressman Jason Brown, of Seymour, spent yesterday in this city, on his way to Shelbyville. His visit to Shelbyville was in the interest of James Bond, whose case will be argued in circuit court there today on a motion to quash the indictment. While here Mr. Brown was the guest of M. D. Enig and Henry Palmer, who procured a landau and drove him about the city, and wound up with one of Dave Emig's characteristic dinners at the P. A. e hotel. Mr. Brown says it was the best dinner he had enjoyed for many days, the fish and steak being of the very best, and the cooking, Mr. Brown says, couldn't be beaten anywhere.—Columbus Times.

Rev. Albert Ogle returned last evening to Indianapolis from a pleasant time spent at New Albany.

### CANDLE POWER.

**How to Measure the Lighting Force and Effect of a Flame.**

This question and its answer have been until recently of interest to scientists only. But since one method of lighting is competing with the other for superiority the question of lighting power has seemingly become a public matter. How many candle power? The question is very simple and yet mysterious to the layman.

For measuring the lighting power the most reliable results are obtained by means of a grease spot. In its most simple application the experiment can be tried easily at home. A sheet of white paper with a grease spot in the center is put into a frame and placed between two flames of different lighting power—for instance, between an ordinary candle and a lamp.

When the frame is equally distant from the two unequally bright flames, the grease spot can be seen plainly on both sides. By moving the frame with the sheet of paper slowly toward the less brilliant light—that is, the candle—it will arrive finally at a point where the grease spot has apparently disappeared on both sides of the paper. This deception must always occur when on both sides of the paper an equal brightness prevails and no side light exists. Having reached this point, it can be ascertained how much stronger is the light of the lamp than that of the candle.

If the candle is 20 inches distant from the paper and the lamp 60 inches and yet the brightness on both sides of the paper is the same, then the light of the lamp will be as strong as that of nine candles. The calculation is based upon the distances, the figures of which are multiplied by themselves and then divided—here, for instance, 60 times 60 divided by 20 multiplied by 20 equals 9.

This, of course, is the most primitive method for measuring light, but it is the principle for all the delicate instruments used in the laboratories.—Pearson's Weekly.

### IDENTIFIED IN ADVANCE.

**Why She Was Convinced That the Dead Man Was Not Her Husband.**

Notwithstanding she was not a dame of high degree, she was a woman of character, and there was a peculiar aggressiveness in the freckle on her nose which made the police officers on duty at the station house step around lively when she called on a matter of business.

"I understand," she said to the sergeant, "that there's the body of a man waiting to be identified here."

"It is at the morgue, madam," responded the sergeant, but with more suavity than is common.

"Well, my husband hasn't been at home for three days, and I thought it might be him. Can you tell me what he looks like?"

"Yes; but you could get a good deal more satisfaction by going to the morgue yourself, ma'am."

"I suppose I could," she sighed as if she felt sure she would not identify the remains as those of her husband. "Was he killed?"

"Oh, no, ma'am," exclaimed the sergeant. "He died suddenly. The patrolman saw him fall on the street."

"Died sudden, did he?" she asked with interest.

"Yes, ma'am."

Her tone indicated that she thought the police were to blame in some way.

"Well," she said, "there's no use in my going to the morgue if that's the case. It ain't my husband. He never does anything sudden in his life. He's the slowest man on earth. Goodbye," and she walked out of the station house as if she were sorry about something.—Washington Star.

**A Small Boy's Good Memory.**

One of the dentists of this city has a precocious child of about 4 summers. The bright little fellow keeps his father and mother wide awake during the whole day by his wit and keenness. When the child was about 2 years of age, his parents visited Niagara falls. Baby went along. The other day a friend of the family was at the house, and she spoke of Niagara. The 4-year-old quickly spoke up that he had been there. His mother told him that he certainly could not remember it, but the child said that he could. His mother asking him what it looked like, Johnnie replied, "It looks like a great big ocean going awful fast."—Albany Journal.

### THE BRIDGE BUILDERS.

We build a bridge of trust From night to morn. A mystic arch of dreams Till day is born.

We build a bridge of trust From friend to friend, And often break the span We cannot mend.

We build a bridge of trust From shore to shore, And shadow figures steal across At peace forevermore.

### THE USE OF COCAINE.

**Horse Trainers and Jockeys Find It Useful as a Bracer For Their Nags.**

Within a recent period cocaine has come into use on the race track as a stimulant. Horses that are worn and exhausted, or are uncertain as to speed and endurance, are given 10 to 15 grains of cocaine by the needle under the skin at the time of starting, or a few moments before.

The effects are very prominent, and a veritable muscular delirium follows, in which the horse displays unusual speed and often unexpectedly wins the race. This agitation continues, and the driver has difficulty in "slowing down" the horse after the race is over; not unfrequently the horse will go half way round again before he can be stopped. The exhaustion which follows is not marked, except in the great thirst and loss of appetite. Sometimes diarrhea and trembling follow. But good groomers give unusual attention to rubbing and bathing the legs in hot water and stimulants. The general effect on the horse is depression, from which he soon recovers, but it is found essential to give cocaine again to make sure of his speed. The action of cocaine grows more transient as the use increases, and when a long period of scoring follows before the race begins drivers give a second dose secretly while in the saddle. Sometimes the horse becomes delirious and unmanageable and leaves the track in a wild frenzy, often killing the driver, or he drops dead on the track from cocaine, although the cause is unknown to any but the owner and driver. Some horses have been given as high as 20 grains at a time, but this is dangerous and only given to worn-out animals, who may by this means win a race. It appears that cocaine is only used in running races and as a temporary stimulant for the time. It is claimed that the flashing eyes and trembling excitement of the horse are strong evidence of the use of cocaine.—Cincinnati Enquirer.

### Ingrowing Hair.

The barber was talking. "Ingrowing hairs in the face are often painful," he remarked, "but they aren't in it with ingrowing hairs under the finger nails. Fact, I assure you. Ask any barber, and he will tell you the same thing. How do they get there? Oh, that's simple enough. In cutting a man's hair, a short hair very often flies off the shears and lodges under the finger nail. We don't notice it at the time, and it gradually works its way in until it is completely out of sight. Then the trouble begins. Sometimes it takes root and grows out, but more often it just stays there and festers. Does the razor hurt? There you are, sir. Next!"—Philadelphia Record.

**Uncalled For Indignity.**  
"That's what I call an insult to the whole human race."

"What is?"

The first speaker pointed to a North Side butcher's window, where, under an array of calves' livers, hung this sign, "Get Your Brains Here."—Chicago Tribune.

The majority of grown people, as well as the children, in ancient Rome rarely lighted a candle unless at dawn.

The bedtime in Rome, Athens, Egypt and other parts of the Mediterranean shore was between 7 and 9 o'clock in the evening, according to the season.

## Dr. Miles' Nervine Victorious.

Physical and Mental Exhaustion Gives Way to Vigorous Activity.

REV. W. T. HOOKER, the talented pastor of Grace U. B. church, Carlisle, Penn., writes September 28, 1895: "I always enjoyed good health until 1892, at which time my duties as a clergyman were of a peculiarly trying nature, subjecting me to several severe nervous shocks which together with overwork and anxiety, impaired my general health and nervous system. Indeed I was in such a condition that the mere sight of a large congregation so wearied me that it would require a day or more for me to recover from the exhaustion. It affords me great pleasure to say that Dr. Miles' Restorative Nervine and Restorative Tonic have done me untold good. I preached three times yesterday and I feel as fresh and vigorous this morning as I ever felt in my life, thanks to your remedies. ## SAME OLD SPEECH.

Ephriam, whose surname is Inman, entertains the Bryan Club.

The Seymour Bryan club held a meeting last night. Proceeding this meeting the band played. Several pieces were rendered. The boys played well. More than a hundred came out to hear them and some of them remained for the meeting. Ephriam, whose surname is Inman, had been brought up from Washington to talk. He had been here before. He talks Bryanism.

When those who were present were induced to "come forward and fill up the front seats" the meeting was ready to be presided over. Several popocratic dignitaries were present. The "key notesounder" came in early and took a seat in the middle of the hall, thus furnishing ballast. To his right sat Tom Arbuckle, the personification of popocratic wisdom. The Burkharts, both Joe and Charley, were there looking pleasant. Dr. J. T. Shields and William Railing sat side by side on the front row of chairs. A. N. Munden was there doing service for the brethren and getting points for the speech he is to make at North Vernon, April 13. Auditor Durment, Recorder Brooks and Treasurer George Andy Robertson came up from Brownstown and stayed until the meeting was out. George Andy sat on the platform. Besides these there were others among whom were J. Q. A. Newsom and Wilbur Pfaffenberger.

The hour came to call order and for the people in the audience to cease whispering. Henry Bruning, president of the Bryan club, stepped forward and spoke as follows: "Ladies and Gentlemen, in 1776 there was a day they called the Fourth of July. In 1896 we had a day remembered as the Third of November." (At this point a number of handkerchiefs went to the eyes of the popocrats present, which confused the speaker, but he ended his introduction bravely.) "We have a gentleman with us tonight by the name of Inman whom I am pleased to introduce."

Inman arose and said he was glad to come. Then he proceeded to deliver the same speech he delivered here last fall. He talked for over an hour after which the meeting adjourned and the speaker was given a ticket to return to his home at Washington, where he has a job as city attorney.

## Marvelous Results.

From a letter written by Rev. J. Gun derman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist church at Rives Junction she was brought down with pneumonia, succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery. It was quick in its work and highly satisfactory in results." Trial bottle free at W. F. Peter's, successor to J. H. Andrews & Co, Drug Store.

## Kasting-Backemier.

At high noon to-day, March 25, 1897, Wm. H. Kasting and Miss Sadie Backemier were quietly married by Rev. A. Graessle at the home of F. H. Kasting, three and one half miles southwest of Seymour. Only the immediate relatives and a few friends were present. The bride is the daughter of Mrs. Backemier, who lives in that vicinity. The groom is the son of the prosperous farmer, F. H. Kasting. Both young people are held in the highest esteem by a large circle of friends.

## DROWNED.

Benjamin Covert, of Crothersville, Drowned in the Muscatatuck Today.

Benjamin Covert, of Crothersville, was drowned at 11 o'clock this Thursday forenoon, March 25, 1897, in the Muscatatuck river at Langdon. He was assisting in moving a boat across the stream, and accidentally fell into the water. He was about thirty five years old. He leaves a wife and two children. The body has been recovered. The coroner was called this afternoon.

## Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison, headache, indigestion, constipation, dizziness, yield to Electric Bitters. Try it once. 50c and \$1.00 per bottle at W. F. Peter's successor to J. H. Andrews & Co., Drug Store.

## Deafness Cannot Be Cured.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result and unless the inflammation can be taken out, and this tube restored to its normal condition or hearing will be destroyed forever, nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Props., Toledo, O. **John R. McLean's Great Newspaper.**

Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; or a more successful publisher than its proprietor, Mr. John R. McLean. The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes it incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

John A. Ross, traveling engineer for the Atchison, came in from the east, last evening, accompanied by George Carter, of Seymour, Indiana, an engineer in quest of a job.—Las Vegas (N. M.) Optic.

### Card of Thanks.

I desire through the columns of the REPUBLICAN to return my heartfelt thanks to my neighbors and friends who so kindly assisted during the sickness and at the death and burial of my dear sister, Mrs. Anna Weimer, and assure them that they will be held in kindly remembrance by  
MRS. FREDERICA HEISS.

The reception given Prof. John F. Baird and bride at the Presbyterian church, by the members of the church last Tuesday night, was a very pleasant affair. The attendance was large and a very enjoyable time was had.—Prof. Baird is very popular with his congregation.—North Vernon Banner Plain-Dealer.

### OUR JASON.

Entertained Royally By Friends at Columbus.

Ex-congressman Jason Brown, of Seymour, spent yesterday in this city, on his way to Shelbyville. His visit to Shelbyville was in the interest of James Bond, whose case will be argued in circuit court there today on a motion to quash the indictment. While here Mr. Brown was the guest of M. D. Enig and Henry Palmer, who procured a landau and drove him about the city, and wound up with one of Dave Emig's characteristic dinners at the Palace hotel. Mr. Brown says it was the best dinner he had enjoyed for many days, the fish and steak being of the very best, and the cooking, Mr. Brown says, couldn't be beaten anywhere.—Columbus Times.

Rev. Albert Ogle returned last evening to Indianapolis from a pleasant time spent at New Albany.

### CANDLE POWER.

How to Measure the Lighting Force and Effect of a Flame.

This question and its answer have been until recently of interest to scientists only. But since one method of lighting is competing with the other for superiority the question of lighting power has seemingly become a public matter. How many candle power? The question is very simple and yet mysterious to the layman.

For measuring the lighting power the most reliable results are obtained by means of a grease spot. In its most simple application the experiment can be tried easily at home. A sheet of white paper with a grease spot in the center is put into a frame and placed between two flames of different lighting power—for instance, between an ordinary candle and a lamp.

When the frame is equally distant from the two unequally bright flames, the grease spot can be seen plainly on both sides. By moving the frame with the sheet of paper slowly toward the less brilliant light—that is, the candle—it will arrive finally at a point where the grease spot has apparently disappeared on both sides of the paper. This deception must always occur when on both sides of the paper an equal brightness prevails and no side light exists. Having reached this point, it can be ascertained how much stronger is the light of the lamp than that of the candle.

If the candle is 20 inches distant from the paper and the lamp 60 inches and yet the brightness on both sides of the paper is the same, then the light of the lamp will be as strong as that of nine candles. The calculation is based upon the distances, the figures of which are multiplied by themselves and then divided—here, for instance, 60 times 60 divided by 20 multiplied by 20 equals 9. This, of course, is the most primitive method for measuring light, but it is the principle for all the delicate instruments used in the laboratories.—Pearson's Weekly.

### IDENTIFIED IN ADVANCE.

Why She Was Convinced That the Dead Man Was Not Her Husband.

Notwithstanding she was not a dame of high degree, she was a woman of character, and there was a peculiar aggressiveness in the freckle on her nose which made the police officers on duty at the station house step around lively when she called on a matter of business. "I understand," she said to the sergeant, "that there's the body of a man waiting to be identified here."

"It is at the morgue, madam," responded the sergeant, but with more suavity than is common.

"Well, my husband hasn't been at home for three days, and I thought it might be him. Can you tell me what he looks like?"

"Yes; but you could get a good deal more satisfaction by going to the morgue yourself, ma'am."

"I suppose I could," she sighed as if she felt sure she would not identify the remains as those of her husband. "Was he killed?"

"Oh, no, ma'am," exclaimed the sergeant. "He died suddenly. The patrolman saw him fall on the street."

"Died suddenly, did he?" she asked with interest.

"Yes, ma'am."

Her tone indicated that she thought the police were to blame in some way.

"Well," she said, "there's no use in my going to the morgue if that's the case. It ain't my husband. He never done anything sudden in his life. He's the slowest man on earth. Goodby," and she walked out of the station house as if she were sorry about something.—Washington Star.

### A Small Boy's Good Memory.

One of the dentists of this city has a precocious child of about 4 summers. The bright little fellow keeps his father and mother wide awake during the whole day by his wit and keenness. When the child was about 2 years of age, his parents visited Niagara Falls. Baby went along. The other day a friend of the family was at the house, and she spoke of Niagara. The 4-year-old quickly spoke up that he had been there. His mother told him that he certainly could not remember it, but the child said that he could. His mother asking him what it looked like, Johnnie replied, "It looks like a great big ocean going awful fast."—Albany Journal.

### THE BRIDGE BUILDERS.

We build a bridge of trust  
From night to dawn.  
A mystic arch of dreams  
Till day is born.

We build a bridge of trust  
From friend to friend.  
And often break the span  
We cannot mend.

We build a bridge of trust  
From shore to shore.  
And shadow figures steal across  
At peace forevermore.

### THE USE OF COCAINE.

Horse Trainers and Jockeys Find It Useful as a Bracer For Their Nags.

Within a recent period cocaine has come into use on the race track as a stimulant. Horses that are worn and exhausted, or are uncertain as to speed and endurance, are given 10 to 15 grains of cocaine by the needle under the skin at the time of starting, or a few moments before.

The effects are very prominent, and a veritable muscular delirium follows, in which the horse displays unusual speed and often unexpectedly wins the race. This agitation continues, and the driver has difficulty in "slowing down" the horse after the race is over; not unfrequently the horse will go half way round again before he can be stopped. The exhaustion which follows is not marked, except in the great thirst and loss of appetite. Sometimes diarrhea and trembling follow. But good grounds for unusual attention to rubbing and bathing the legs in hot water and stimulants. The general effect on the horse is depression, from which he soon recovers, but it is found essential to give cocaine again to make sure of his speed. The action of cocaine grows more transient as the use increases, and when a long period of scoring follows before the race begins drivers give a second dose secretly while in the saddle. Sometimes the horse becomes delirious and unmanageable and leaves the track in a wild frenzy, often killing the driver, or he drops dead on the track from cocaine, although the cause is unknown to any but the owner and driver. Some horses have been given as high as 20 grains at a time, but this is dangerous and only given to worn-out animals, who may by this means win a race. It appears that cocaine is only used in running races and as a temporary stimulant for the time. It is claimed that the flashing eyes and trembling excitement of the horse are strong evidence of the use of cocaine.—Cincinnati Enquirer.

### Ingrowing Hair.

The barber was talking. "Ingrowing hairs in the face are often painful," he remarked, "but they aren't in it with ingrowing hairs under the finger nails. Fact, I assure you. Ask any barber, and he will tell you the same thing. How do they get there? Oh, that's simple enough. In cutting a man's hair, a short hair very often flies off the shears and lodges under the finger nail. We don't notice it at the time, and it gradually works its way in until it is completely out of sight. Then the trouble begins. Sometimes it takes root and grows out, but more often it just stays there and festers. Does the razor hurt? There you are, sir. Next!"—Philadelphia Record.

### Uncalled For Indignity.

"That's what I call an insult to the whole human race."

"What is?"

The first speaker pointed to a North Side butcher's window, where, under an array of calves' livers, hung this sign, "Get Your Brains Here."—Chicago Tribune.

The majority of grown people, as well as the children, in ancient Rome rarely lighted a candle unless at dawn. The bedtime in Rome, Athens, Egypt and other parts of the Mediterranean shore was between 7 and 9 o'clock in the evening, according to the season.
